Bathroom Collection
Autumn 2024

Welcome to the Beggs & Partners Autumn 2024 Instinct Bathroom Collection

Within you will find this season's comprehensive range of Instinct bathroom products, incorporating cutting-edge technology and styling from leading industry designers.

Whether you are looking for a contemporary or traditional bathroom, the Instinct product range provides inspiration from a comprehensive range of styles, finishes and colours, helping you choose a high-quality bespoke solution for you.

Let us introduce ourselves...

We are a specialist plumbing and heating merchant, with an 12 branch network throughout Northern Ireland and South East England. Our dedicated team of experts

supply an extensive range of bathroom, plumbing and heating products to our client base through our trade sales division, retail showrooms and project specifications business.

We have been trading from our Great Patrick Street, Belfast headquarters for nearly 65 years and have established a strong reputation for quality, value and excellent customer service.

Working as supply chain partners with some of the most successful and innovative global brands, we pride ourselves on our stock-holding capacity and ability to service the needs of our customer whatever their budget, timeframe, or design expectation.

5

Years

on Furniture, Mirrors + Cabinets, Cisterns + WC Frames, Toilet Seats + Bath Panels

20

Years

on Basins + WCs

Adding the finishing touches to your fitted furniture creates a unified look and maximises the space available in your bathroom. All units have soft close hinges and basin units feature an adjustable shelf, removable back panel for easy pipe access and a 50mm plumbing void. Floor cupboards have a reversible door for ease of access.

Choose from 3 door styles in a range of contemporary finishes, work out which mix of units works best for your space and then add all the finishing touches. It's easy to plan your new bathroom, simply follow the step by step guide below.

1. Door Styles + Finishes

Choose your desired door finish in either 'slab', 'shaker' or 'J-Pull' style.

2. Combination + Depth of Units (Pages 54-58)

Assess the space you have available in your bathroom + work out which units you need. Choose from standard depth (353mm) or space-saving slim depth (218mm) units.

Fitted Furniture

3. Handles (Page 59)

Choose your handle style from the 9 available options.

4. Worktops (Pages 59-60)

Select a worktop from either our Strata solid surface or laminate options.

Alternatively, for a sleek contemporary look, opt for our Isocast worktops with integrated basin, available to fit both standard and slim depth units.

5. Panels + Plinths (Page 60)

Select the plinths to fit your furniture run and any panels you may need. Filler panels can be cut down and used with a worktop to fill a void in a wall-to-wall installation.

6. Wall Units (Page 61)

Choose a mirror and add any useful wall units.

7. Sanitaryware (Pages 68-121)

Choose sanitaryware options from the wide range of semi-countertop basins and back to wall WC pans.

8. Co-ordinating Bath Panels (Page 61)

Select a co-ordinating bath panel.

9. Tap Options (Pages 200-225)

Complete your bathroom with an Instinct basin mixer.

10. Co-ordinating Cabinets (Page 62)

Select a co-ordinating cabinet.

11. Co-ordinating Mirrors (Page 63)

Select a co-ordinating mirror.

Fitted Furniture Selections

To make things easier to order we have gathered together below some very commonly used configurations of fitted furniture. These cover three furniture widths, a 1000mm, 1200mm or 1500mm run. Each configuration is available with either contemporary slab, classic Shaker-style or J-Pull Doors and with a number of finishes in each style.

Make sure you select the correct left or right hand basin option for your room layout, and pick the configuration which works best for you, in the style and colourway of your choice. Then simply order the single code which includes all the components you need.

***Note:** price does not include Keros Back to Wall WC, Seat, Concealed Cistern and Flush Button. To order separately, see pages 81-82 Keros for WC and Seat, page 200 for Basin Mixer choices, page 125 for Concealed Cistern and page 128 for Flush Button.

Sanitaryware Features

There are many features in our sanitaryware range. Use the icons to help choose the right option for you.

Pans + Bidets

Rimless
Rimless flushing, hygienic and easy to clean.

Comfort Height
The comfort height option sits several centimetres taller than standard WCs.

Short Projection
Space saving short projection pans, ideal for small washrooms.

Easy Install
Our WC Pillar Units are designed for easy maintenance and installation.

Contactless Controls
Infrared switch allows control with the wave of your hand.

Full Flush Volume
The total volume of water discharged from the flushing system during a flush cycle.

Dual Flush Volume
The dual flush allows you to save water while providing you with the flexibility to choose between a water saving 3 litre flush or a standard 6 litre flush.

Eco Dual Flush Volume
A more effective water saving flush volume. The dual flush allows you to choose between a water saving 2.6 litre flush or a standard 4 litre flush.

Air Gap
Provides an air space between your tank's water level and your municipal refill line to ensure that cross contamination and back-siphonage is impossible.

Right Hand Flush
Ergonomically positioned cistern handle for convenient flushing.

Toilet Seats

Quick Release
Easy to operate quick release hinges allow the seat to be lifted away easily, leaving clear access to clean hard to reach surfaces.

Top Fix Hinges
Some seats feature a special 'top fix' hinge allowing them to be quickly and easily installed on modern WC pans.

Soft Close
The hydraulic hinge mechanism ensures controlled and quiet closure of the seat lid and ring.

Toilet Seats
Page 120

Furniture

Soft Close Drawers
Soft close drawers used for a smooth, quiet closing action.

Pillar Cistern Units

Touch Controls
Multi function touch control with on/off functionality.

Baths

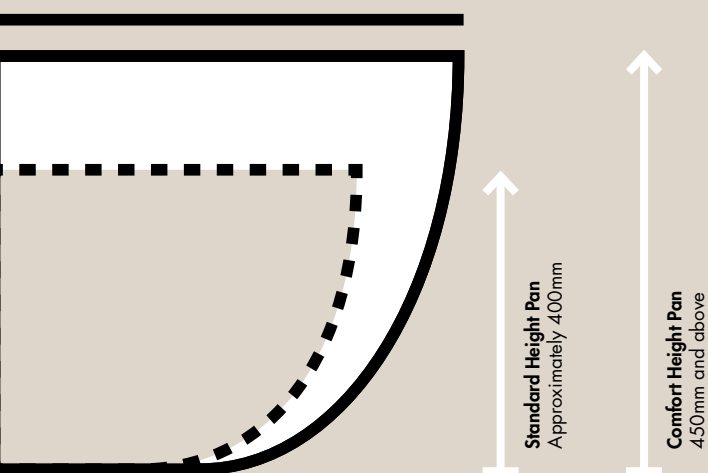

Water Capacity
Total number of Litres the bath can hold safely.

Comfort Height Pan. Short Projection Pan. What's the difference?

Comfort Height Pans

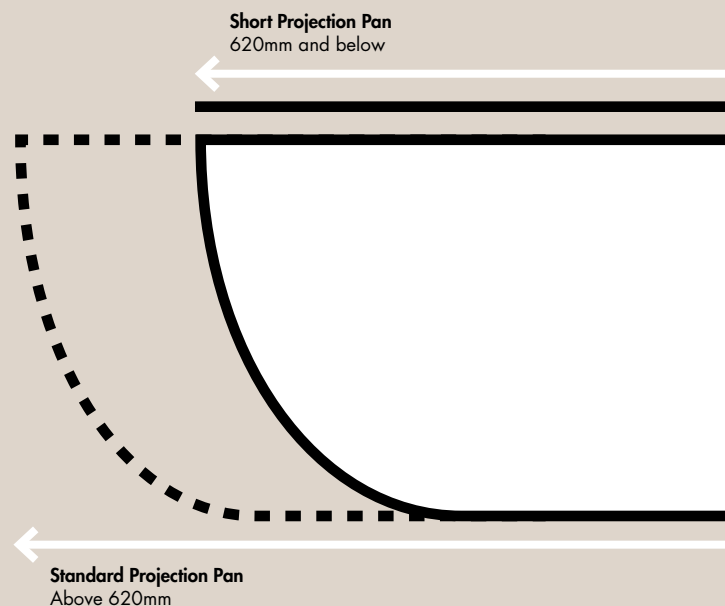

Comfort height pans are designed to ensure that the bowl and seat height is such that they make for comfortable use. Typically comfort height pans are 450mm and above (standard height pans are approximately 400mm in height) and can be particularly useful for the elderly and people with mobility issues.

Short Projection Pans

A short projection pan means that it has a shorter depth than standard, and therefore does not protrude as far, taking up less floor space. Typical short projection pans are 620mm* and below (standard projection pans are typically above 620mm). A short projection pan is ideal for a small bathroom or cloakroom suite.

**620mm is relevant to Close Coupled suites. Below 500mm is considered short projection for Back to Wall and Wall Hung Pans.*

Please look out for the comfort height and short projection icons in the following sanitaryware pages. Alternatively, use the range selector on page 69 and discover which of our Instinct Sanitaryware have comfort height and short projection pan options.

Flushing Features

There are many features in our flushing range. Use the icons to help choose the right option for you.

Guarantees

All WC frames, concealed cisterns, flush plates, flush buttons and contactless flushing products come with a five year guarantee.

Back To Wall Pans

Can be used for back to wall pans.

Wall Hung Pans

Allows wall hung pans to be used.

Wall Hung Bidets

Can be used for wall hung bidets.

Air Gap

WRAS approved Air Gap inlet valve included.

Dual Flush Volume

The Dual Flush allows you to save water while providing you with the flexibility to choose between a water saving 3 litre flush or a standard 6 litre flush.

Easy Install

Our concealed cisterns and WC frames are designed for easy maintenance and installation.

Insulation

The Instinct concealed cistern jackets are fully insulated.

Low Battery Alarm

Alarm activates when batteries are running low.

Contactless Controls

Infrared switch allows control with the wave of your hand.

WC Frames

Bath Screen Features

There are many features in our bath screen range. Use the icons to help choose the right option for you.

Ten Years + Lifetime Guarantees
Our Instinct 8 bath screens have either a 10 year or lifetime guarantee. Instinct 6 bath screens all come with a lifetime guarantee.

Glass Thickness
All our bath screens feature toughened safety glass. Safety glass is around five times stronger than normal glass.

Reversible
The bath screen is reversible for left or right hand applications.

Rotates Through 180°
All or part of the bath screen rotates through 180° for easier access.

Easy Clean Glass
Designed and manufactured to present easy cleaning ability to ensure your bath screen lasts for many years.

Ultracare Glass Protection
Pre-coated with Ultracare, a unique glass protection system designed to prolong the life of your bath screen.

Bathroom Taps + Accessories Features

There are many features in our bathroom taps and accessories range. Use the icons to help choose the right option for you.

Ten Year Guarantee
All bathroom taps come with a ten year guarantee.

System Pressure
Recommended minimum system pressure. Low pressure at 0.1 Bar, Medium pressure at 0.5 Bar, High pressure at 1.0+ Bar.

Minimum Operating Pressure
Suitable for a system with low water pressure.

Maximum Operating Pressure
Suitable for a system with high water pressure.

Flow Straightener
Supplied with flow straightener outlet option.

Flow Aerator
Supplied with water saving aerator outlet. The device controls the amount of water that flows through the tap as it mixes water with air.

Eco Aerator
Further limits the flow of water and reduces consumption. The dual core aerators limit maximum flow to 5 l/min for bathroom products whilst comfort of usage remains the same.

Single Flow
This single tap style mixes hot and cold water in the body of the tap.

Flexible Hose
Supplied with flexible hose for easy installation

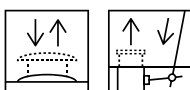

Cold Open
The cold open cartridge system ensures mixer opens with cold water only avoiding the unnecessary use of hot water to deliver energy savings.

Shower Kit
Bath shower mixer supplied with a handy separate side shower.

Backnut
Supplied with either a brass or plastic backnut.

Waste
Supplied with either a click or pop up waste.

Flow Rate – X.X l/min

Flow Rate
Flow rate shown is based on testing conducted against published pressure using the following criteria. LP at 0.2 bar. MP at 0.5 bar. HP at 3 bar.

Kitchen Taps Features

There are many features in our kitchen taps. Use the icons to help choose the right option for you.

Ten Year Guarantee
All kitchen taps come with a ten year guarantee.

System Pressure
Recommended minimum system pressure.
Low Pressure at 0.1 Bar, Medium Pressure at 0.1 Bar, High Pressure at 1.0+ Bar.

Minimum Operating Pressure
Suitable for a system with low water pressure.

Maximum Operating Pressure
Suitable for a system with high water pressure.

Single Flow
This single tap style mixes hot and cold water in the body of the tap.

Flow Straightener
Supplied with flow straightener outlet option.

Flow Aerator
Supplied with water saving aerator outlet.

Eco Aerator
Further limits the flow of water and reduces consumption.

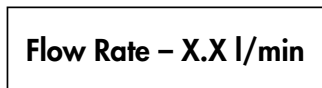

Pull Out Spout
Pull out spouts feature a spray head that can be pulled directly out of the tap body.

Flexible Hose
Supplied with flexible hose for easy installation.

Backnut
Supplied with either a brass or plastic backnut.

Flow Rate
Flow rate shown is based on testing conducted against published pressure using the following criteria.
LP at 0.2 bar. MP at 0.5 bar. HP at 3 bar.

Fast Fix
For a quick and easy installation that allows assembly by hand, without any tools.

Cold Open
The cold open cartridge system ensures mixer opens with cold water only avoiding the unnecessary use of hot water to deliver energy savings.

Shower Features

There are many features in our shower. Use the icons to help choose the right option for you.

Minimum Operating Pressure
Suitable for a system with low water pressure.

Maximum Operating Pressure
Suitable for a system with high water pressure.

Fast Fix
For a quick and easy installation.

Single Outlets
These shower valves supply water to just a single outlet such as a fixed shower head or hand shower.

Twin Outlets
Come with two separate heads, allowing you to enjoy the most relaxing shower possible.

Anti Scald
Thermostatic valve regulates water temperature to prevent scalding hot water if someone else is using water in the home.

Cool Touch
Featuring safe touch valve bodies and anti-scald thermostatic technology.

Slide Rail Kit
Consist of a shower head, a shower hose and a rail on which the shower heads slides up and down.

Telescopic Rail Kit
Consist of a shower head, and a rigid riser rail on which the shower heads moves up and down.

Single Function Handset
A single spray function is available on this shower head.

Multiple Function Handset
Multiple spray settings are controlled individually on these shower heads.

Rub Clean Nozzles
Shower heads with rubber rub clean nozzles. Rub the nozzles with your finger or a toothbrush to loosen any deposits.

Hose Type
Instinct shower hoses are available in three flexible finishes. Reinforced Stainless Steel and Smooth. Replacement washers included.

System Pressure
Recommended minimum system pressure. Low pressure at 0.1 Bar, Medium pressure at 0.5 Bar, High pressure at 1.0+ Bar.

Flow Rate – X.X l/min

Flow Rate
Flow rate shown is based on testing conducted against published pressure using the following criteria. LP at 0.2 bar. MP at 0.5 bar. HP at 3 bar.

Ultimate build quality 'behind the tiles'

Scan to watch the
Elements wetroom
feature video

Build your bathroom + wetroom in 3 simple steps

We've made it as simple as possible to achieve your perfect wetroom.

With a comprehensive range of shower trays and complementary shower screens plus a selection of tile backer boards for wall and floor, you can create an aspirational space that combines cutting-edge design with industry-leading waterproofing properties.

1 Waterproof your bathroom behind the tiles

We recommend using our Tile Backer Boards and Waterproofing Components for a fully waterproof installation on the walls and floors.

2 Create beautiful wetrooms

Designed and manufactured in the UK specifically for the UK market, Elements wetroom shower kits are the ultimate way to create the perfect secure wetroom.

Whether your requirement is fully level access or raised wetrooms we can accommodate your needs.

Supplied with full installation kit and high capacity drain.

3 Design waterproof recessed shower storage

Designed for pre-wall installation to make excellent use of space otherwise lost. Manufactured from the same high grade material used to produce our waterproofing building product range, our selection of recessed storage is fully waterproof and ready for installation.

Before Tiling

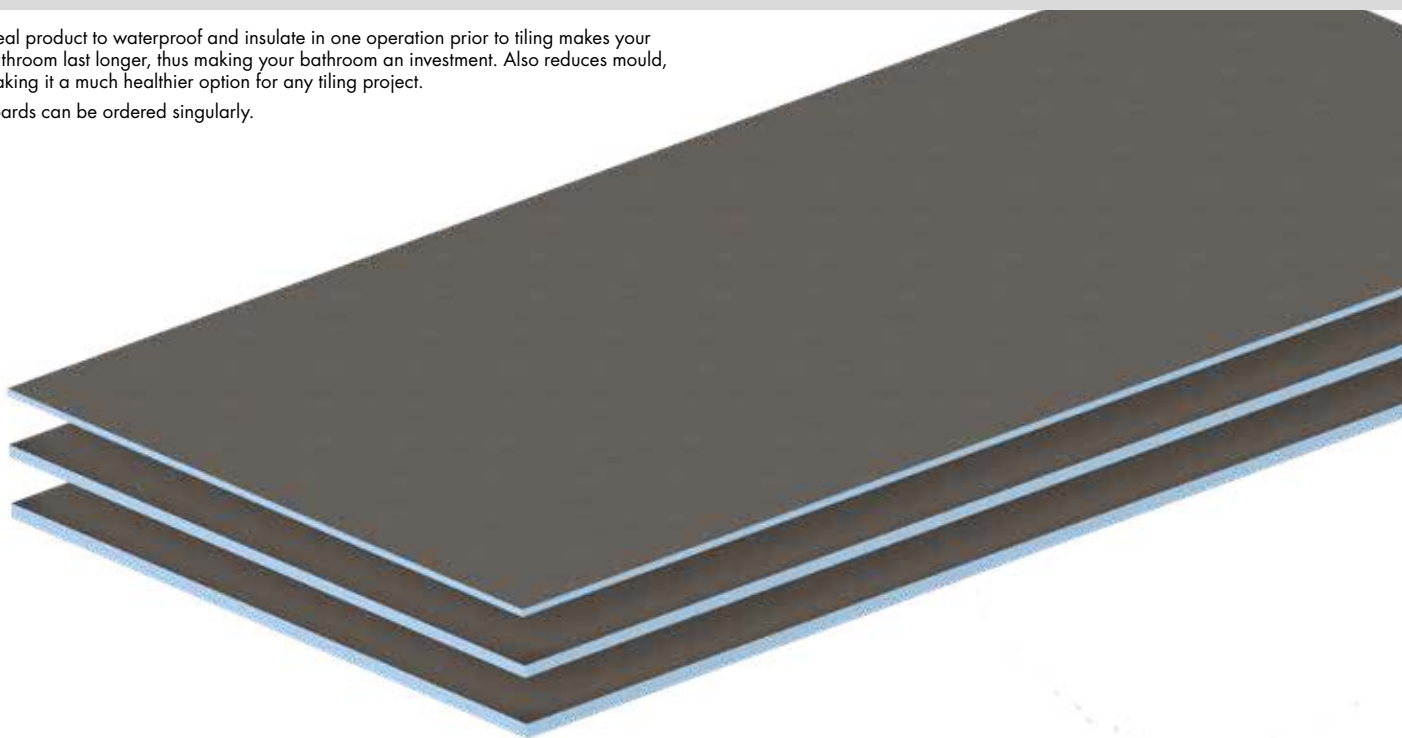

Wetroom Systems

Tile Backer Boards

Ideal product to waterproof and insulate in one operation prior to tiling makes your bathroom last longer, thus making your bathroom an investment. Also reduces mould, making it a much healthier option for any tiling project.

Boards can be ordered singularly.

Raised Wetroom Kits

Square Drain

130mm

The Concept 1 + 4 is designed for use where the customer cannot or chooses not to site the drain within the floor. This system is also suitable where longer runs are required for drainage pipework not achievable within the floor, up to 1.5m from the waste to the soil pipe. This typically will be used for apartment buildings or awkward joist locations on timber floors.

Dimensions –
130(h) x 1850(w) x 900(d) mm (PHGWR-KS15-1809)
130(h) x 1850(w) x 750(d) mm (PHGWR-KS15-1807)

PHGWR-KS15-1809	Concept Kit 1	£946.00
PHGWR-KS15-1807	Concept Kit 4	£925.00

50mm

The Concept 3 + 6 kit is designed principally for the replacement of a bath or the creation of a long, low-height shower area. This creates a 50mm raised wet area within the bath or shower room.

Dimensions –
50(h) x 1850(w) x 900(d) mm (PHGWR-KS05-1809)
50(h) x 1850(w) x 750(d) mm (PHGWR-KS05-1807)

PHGWR-KS05-1809	Concept Kit 3	£811.00
PHGWR-KS05-1807	Concept Kit 6	£779.00

Linear Drain 300mm

130mm

The Concept 1L + 4L is designed for use where the customer cannot or chooses not to site the drain within the floor. This system is also suitable where longer runs are required for drainage pipework not achievable within the floor, up to 1.5m from the waste to the soil pipe. This typically will be used for apartment buildings or awkward joist locations on timber floors.

Dimensions –
130(h) x 1850(w) x 900(d) mm (PHGWR-K315-1809)
130(h) x 1850(w) x 750(d) mm (PHGWR-K315-1807)

PHGWR-K315-1809	Concept Kit 1L	£987.00
PHGWR-K315-1807	Concept Kit 4L	£977.00

50mm

The Concept 3L + 6L kit is designed principally for the replacement of a bath or the creation of a long, low-height shower area. This creates a 40/50mm raised wet area within the bath or shower room.

Dimensions –
50(h) x 1850(w) x 900(d) mm (PHGWR-K305-1809)
50(h) x 1850(w) x 750(d) mm (PHGWR-K305-1807)

PHGWR-K305-1809	Concept Kit 3L	£863.00
PHGWR-K305-1807	Concept Kit 6L	£831.00

Shower Enclosure + Shower Seat Features

There are many features in our shower enclosure and shower seat range. Use the icons to help choose the right option for you.

Ten Years + Lifetime Guarantees

Instinct 8 shower enclosures have a 10 year guarantee. Instinct 6 shower enclosures all come with a lifetime guarantee.

Glass Thickness

All our shower enclosures feature toughened safety glass. Safety glass is around five times stronger than normal glass.

Reversible

The shower enclosure is reversible for left or right hand applications.

Bracing Bars

Contemporary designed bracing bar supplied for additional support to hold the glass panel in place.

Magnetic Door Strips

Magnetic seals provide a water tight seal on shower enclosure doors. These seals have sufficient magnetic strength that latches are not required.

Easy Install

Shower enclosures designed for a quick and easy installation.

Weight Limit

Shower seats are designed to safely hold a maximum weight limit.

Soft Open Seat

Soft open seats for a smooth, quiet opening action.

Easy Clean Glass / Seats

Designed and manufactured to present easy cleaning ability to ensure your shower enclosure or shower seat lasts for many years.

Wall Panelling Features

There are many features in our wall panelling range. Use the icons to help choose the right option for you.

Guarantees

The Grant Westfield wall panels have a 30 year guarantee. Wetwall wall panels have a Lifetime guarantee and the Fibo wall panels have a 25 year guarantee.

Fully Waterproof

As you would expect, all wall panels are fully waterproof for your peace of mind.

Easy to Clean

Designed and manufactured to present easy cleaning ability to ensure your wall panels last for many years.

Quick to Install

Panels are designed for a quick and easy installation.

Can be installed over Tiles

A secure and cost effective solution for installation.

Grant Westfield Hydrolock®

Almost seamless joint with Hydrolock. See page 331 for details.

Fibo Aqualock

Fibo's unique Aqualock wall system provides a 100% waterproof surface when used in conjunction with an approved seal.

Seamless Finish

Creates a smooth, uniform, seamless finish throughout your bathroom. Panels with postformed edges are available for end panels.

No Trims Required

Wetwall Elite panels are made using a unique 100% waterproof core, metal or plastic trims are not required.

Post-Formed

Wetwall Elite panels feature one finished radius edge and one tongue to link to T&G.

T&G

Wetwall T&G panels in 1200 and 600mm widths offer the flexibility for less waste and less cost.

MULTIPANEL®

Wall Panelling

About Grant Westfield – The UK’s Best Selling Bathroom Wall Panels

Create beautiful spaces with our waterproof bathroom wall panels, the luxurious and modern way to decorate your bathroom. Our beautiful wall panel collections come in a range of sizes and finishes, including marble, stone and wood, offering you a range of design possibilities, allowing you to reinvent your bathroom in a style that is uniquely yours.

Our unique Hydrolock installation system makes it possible to join panels from our Tile, Pure, Linda Barker, Contemporary and Classic Collections together to create an almost seamless expanse of waterproof wall. Precisely engineered, our Hydrolock edge creates a discreet watertight joint, without the need for grout, meaning less time cleaning grout lines and mould. Panels in our collections are also Forest Stewardship Council (FSC C128180) and Made In Britain certified, meaning that they are made in the UK from sustainable materials, helping to protect our forests for the future.

Tiles, its time to move on.

Hydrolock®

Multipanel panels are available with Hydrolock® tongue and grooved edge for easy click-into-place installation.

Hydrolock Installation

To ensure our panels can be installed to show off their true potential, we created Hydrolock, a unique solution which makes it possible to join panels from our collections (Naturepanel, Tile, Pure, Linda Barker and Contemporary) together to create an almost seamless expanse of waterproof wall. Precisely engineered, our Hydrolock edge creates a discreet watertight joint, without the need for profiles and can even be installed on uneven walls. Hydrolock panels are available in a range of widths for ease of installation – 2400 x 598 mm, 2400 x 900 mm, 2400 x 1200 mm.

The Hydrolock joint reduces the finished face by 20mm i.e. 2400mm x 1200mm becomes 2400 x 1180mm. Straight edge panels are also available.

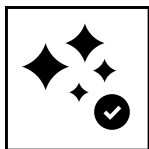

Hydrolock® Joint

Scan the QR code and watch a video to learn more about Hydrolock installation and its benefits.

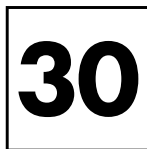

Why Choose Grant Westfield

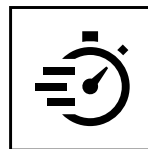

Easy to keep clean

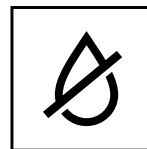

Almost seamless joint with Hydrolock®

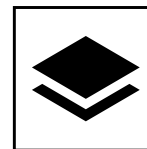

30 year warranty

Quick and easy to install

Fully waterproof

Can be installed over old tiles

The Tile + Pure Collections

Alpine White, Metro – The Tile Collection + Sage Green, Large – The Tile Collection

The Tile + Pure Collections share an inspired range of marble textures and new colours so you can create exciting and unique combinations for your new look bathroom

The Pure Collection includes on-trend designs and textures for a sleek, elegant look.

Renovate your bathroom with our stylish, neutral earth tones or add a touch of colour to your walls with our pinks and blues. If you're looking to recreate that spa-look instead, check out our mineral décors and bestselling marble effects.

Combine your colour choice with a pattern from our Tile range in either Large, Herringbone or Metro styles.

If you love the appearance of traditional tiles but are tired of living with the maintenance of grout, the Multipanel Tile Collection is what you have been waiting for.

The Tile Collection is the first tile-effect wall panel to be Made in Britain and FSC®-certified. Using the very latest in manufacturing technology, we etch a 2.5mm pale grey grout line into our Tile Collection décors, creating a beautiful tile effect with laser precision. Unlike traditional tiles, these tile effect panels are simple to clean and easy to maintain.

25 Years on Fibo Wall Panels

About Us

Designed and manufactured in Norway - the home of wood technology and contemporary Scandinavian styling – Fibo is the leading supplier of tile-effect wall panels. Starting out quite modestly in 1952 with a small factory, today we operate a multi-million pound award-winning factory producing panels for over 100,000 bathrooms a year.

Tried and tested in Norway for almost 70 years, Fibo was the first to make the 'click' system for walls. The smooth and strong surface can withstand both direct water spray and large temperature fluctuations. Quick to dry, easy to clean, and simple to install. You are guaranteed a result that will last for many years.

Did you know?

Research has revealed that Fibo's leading waterproof wall panel system has a carbon footprint that is 37% lower than tiles. This is in part due to Fibo sourcing their plywood from sustainable PEFC certified sources. So, when you choose Fibo wall panels you can be confident that you're choosing the greener option and reducing your carbon impact. Plus, Fibo wall panel surfaces are all antibacterial so there's no more cleaning mould and worrying about bacteria growing between tiles anymore. Why tile, when you can Fibo?

Designed and made in Norway

Designer Warmth Features

There are many features in our designer warmth range. Use the icons to help choose the right option for you.

Guarantees
Our selection of Towel Rails and Radiators have either a 30, 15 or 10 year guarantee.

Build Material
Towel Rails and Radiators are made from either Aluminium, Mild Steel or Stainless Steel.

Heating
For connection to central heating systems.

Electric
Electric only system supply.

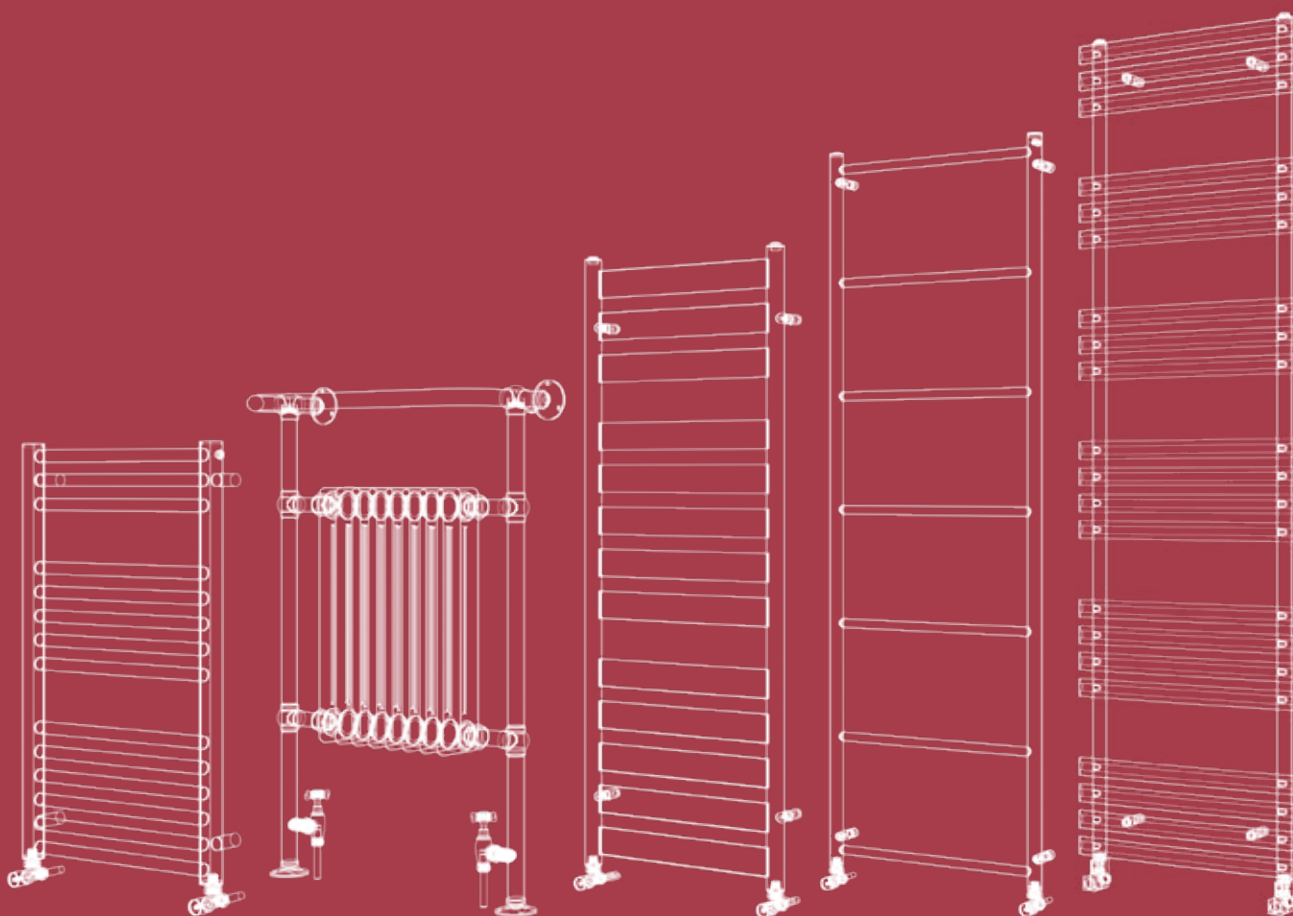

Dual Fuel
Capable of running from either central heating or electric system.

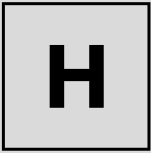

Heated Towel Rail Buying Guide.

All you need to know about buying the right heated towel rail for your bathroom, cloakroom or en-suite space.

When choosing your heated towel rail, there are a number of factors to consider. To help you make an informed decision, follow our step-by-step guide opposite.

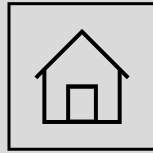

Heated Towel Rail Buying Guide

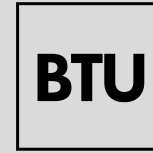

Step 1 Heating Source*

Your first step is to decide if you are going to connect your towel rail to your central heating system, existing mains electric or run off both as a dual fuel option.

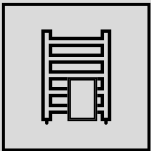

Step 2 Location

Consider your room size – is it for a family bathroom, downstairs cloakroom or smaller en-suite? Location will determine the size and heat output of the towel rail required.

Step 3 Heat Output

BTU (British Thermal Unit) output is one of the biggest considerations when deciding your towel rail. The higher the BTU, the higher the heat output will be. Bigger bathrooms need higher BTU rated rails, smaller en-suites lower.

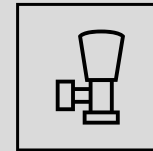

Step 4 Choose a Style

There are many styles of heated towel rails. Select a Contemporary, Traditional or Ladder style to suit your new bathroom or complement your existing space. Choose from floor standing or wall mounted options; where floor space is at a premium.

Step 5 Choose a Finish

Select from a wide variety of colours and finishes. Chrome is a very traditional finish but consider new metallic finishes in Brushed Brass, Gunmetal or colour options in Anthracite, Steel Blue or White Sparkle to name a few. The choice is yours!

Step 6 Choose Accessories

Your final step is to choose a complimentary valve or heating element accessory.

So now you know how. Browse through the pages ahead and choose the right option for you.

Step 7 How to Order

All towel rail options are for Hot Water Heating systems only.

If you wish to order a Sealed Electric option please add the supplement code **PHG-EO-SUPP**.

If you wish to order a Dual Fuel option please add the supplement code **PHG-HE-SUPP**.

Electric Underfloor Heating Features

There are many features in our electric underfloor heating range. Use the icons to help choose the right option for you.

Touch Controls
Multi function touchscreen providing effortless control at your fingertips.

Customise Display
Personalise with photo backgrounds, the only underfloor heating thermostat with this ability.

Colour Display
Clear graphical display makes any adjustment quick and easy. Choose the display style that suits you best – wide choice of screen themes.

Mono Display
Easy-to-use interface and intuitive design enables end users to choose the time as easily as they would with a watch or clock and quickly set their programs.

WiFi Control
Allows you to link your thermostat with your home's existing Smart technologies such as the Amazon Echo or Google Home.

App Control
SmartGeo is a unique technology developed by Warmup and built into the MyHeating App that uses an advanced algorithm to understand the most efficient heat settings for your home.

Compatible with Smart Devices
Monitor your energy + cost graphs on mobile, tablet and desktop.

IP20 Rated
The thermostat is touchproof and will be resistant to dust or objects that are over 12mm in size. However, it has no protection whatsoever against water.

IP33 Rated
The thermostat is protected from tools and wires greater than 2.5mm. Protected from water spray less than 60 degrees from vertical.

Introduction

Electric Underfloor Heating

A cleaner, smarter way to heat your home

Warmup's electric underfloor heating systems are highly suitable for refurbishment projects and nearly all electrical systems can be fitted onto existing subfloors and work with almost all flooring finishes.

Electric Underfloor Heating is a cleaner, more efficient way to heat a home. Floor heaters require much less energy to reach optimal comfort temperatures than traditional centrally-heated radiators and when installed in conjunction with Warmup's Insulation Boards and a Smart Thermostat, you can expect huge savings on heating bills too.

Benefits

Warmup Underfloor heating transforms your room into a sanctuary of warmth.

Design Freedom and Low Maintenance

With no bulky radiators to take up valuable wall and floor space, our systems are a designer's dream.

Suitable for Every Room Type

Thanks to the availability of a wide range of products and systems, there is a solution for virtually any project type whether new-build, refurbishment, retrofit, or renovation.

Cost Savings and Increased Energy Efficiency

Zoning your house with underfloor heating is simple, and unlike traditional systems that run all rooms at the same time, you can set the heating for individual rooms where and when you need it.

Comfort through Even Heat Distribution

Underfloor heating spreads warmth over the entire floor area using low-temperature radiant heat, rather than the high-temperature "point heating" associated with radiators.

Reducing Heat Loss + Energy Consumption

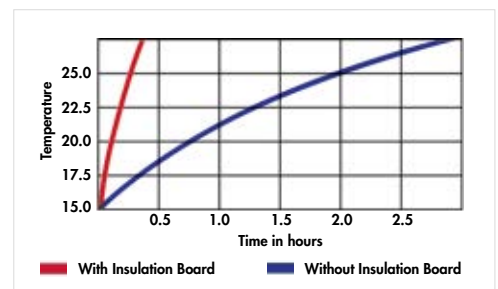

There are several ways to reduce energy consumption and heat loss. These include:

- Improving the insulation of the property (reduction of conduction losses)
- Reducing air leakage (reducing convective losses)
- Reducing energy consumption by using efficient heating methods

The overall heat loss can be decreased by looking at all of the above and by adding insulation or by ensuring that there are no gaps in the existing insulation. For under-floor heating, insulation boards are essential in reducing heat loss to the subfloor and ensuring a fast heat up time.

Running Costs

Underfloor Heating can offer substantially lower running costs compared with traditional central heating. Running costs can vary depending on your home's design, how well insulated it is, what energy tariff you are on and how you control and monitor your homes heating.

Running Time

Room Type	Heated Area	AM	PM	Winter Cost*
Bathroom	4m ²	2hrs	1hr	£24.26
Kitchen	5m ²	1hr	2hrs	£30.33
Lounge	15m ²	0hrs	3hrs	£85.27

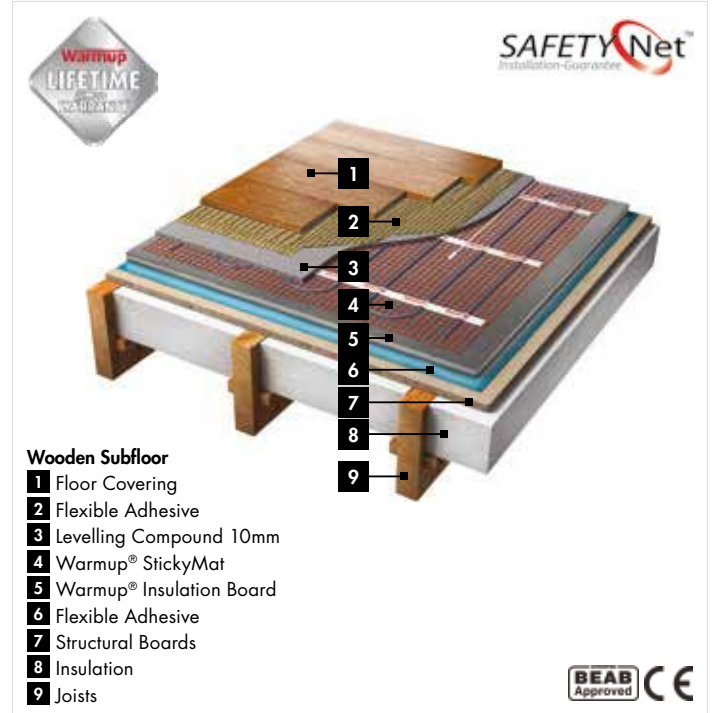

*Assumptions: 12.66p/kWh - system on 6 months (182 days) per year. System installed on 10mm Warmup® Insulation Board. **Avg. running cost after initial heat-up period = 0.85p/m²/hr. For more details visit www.warmup.co.uk

Introduction

Applications

Underfloor Heating Solutions for any Project. Radiant heating is compatible with almost all floor finishes and room types in your house.

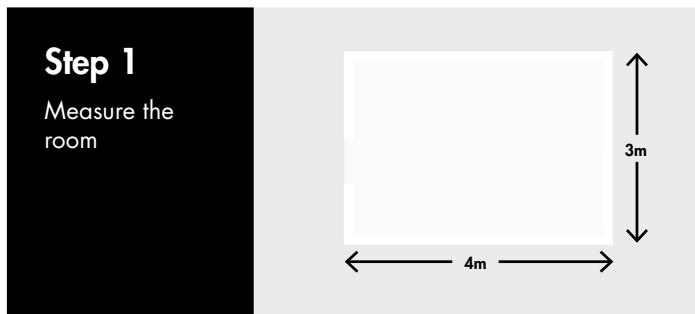

Insulating your floor prevents the thermal mass from escaping downwards, significantly reducing the amount of heat absorbed by the subfloor.

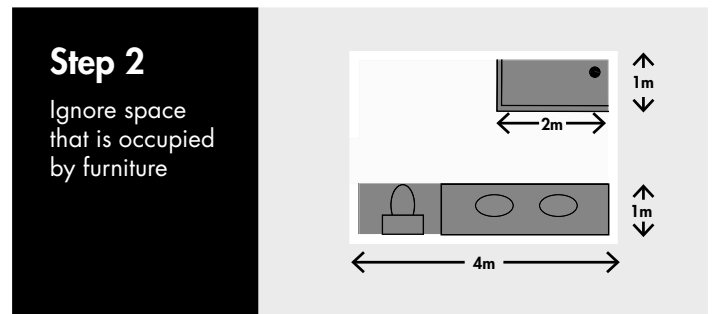

4 Simple Steps To Calculate The Area For Electric Floor Heating Systems

First, determine the available room floor space. This is the total amount of floor area, reduced by the area occupied by fixed objects, i.e. kitchen cabinets, bath, etc.

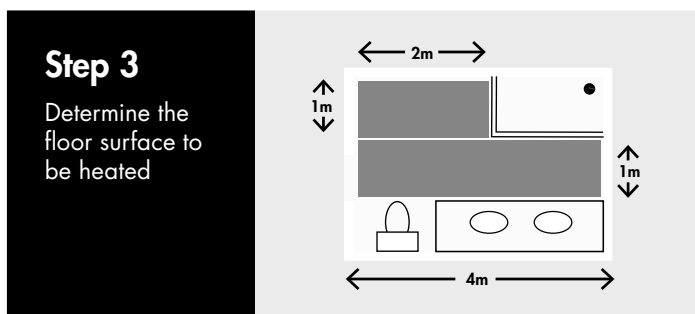

You only need to heat the area you will walk on. We advise you to place at 5 centimetres away from the walls.

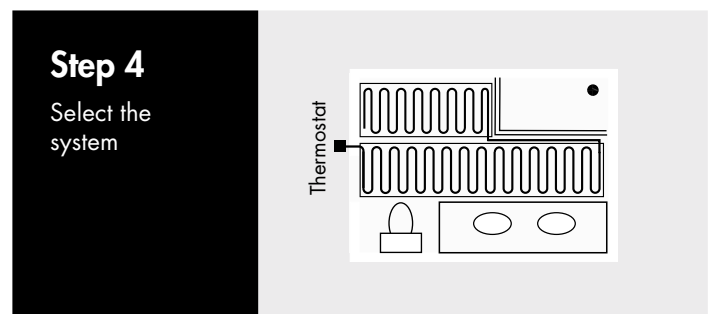

Work out the total floor area.
If the overall space is rectangular in shape, for example 4m by 3m, you only have to multiply both numbers, giving you **12m²**

Calculate how much of the floor space is occupied by fixed objects, such as shower tray, sink, etc.
Start with the big items and finish with small items.
Area occupied by furniture: $4\text{m}^2 + 2\text{m}^2 = 6\text{m}^2$

From step 1 and step 2 you now know how much fixed space you need:
Step 1: 12m² Step 2: 6m²

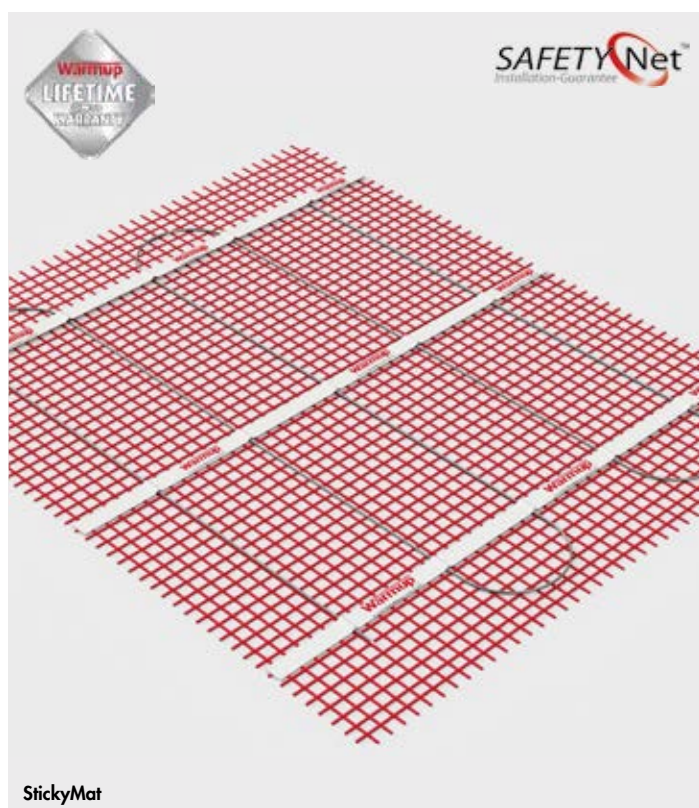

Now calculate the amount of free floor space for your Warmup cable or mat:
Surface to be heated: $12\text{m}^2 - 6\text{m}^2 = 6\text{m}^2$

DCM-PRO

DCM-PRO

DCM-PRO Cable

The DCM-PRO is the fastest solution for the installation of a heated decoupling system in all areas, installing electric underfloor heating in minutes with less tile adhesive because of its self-adhesive backing. The self-healing decoupling layer of the DCM-PRO mat protects floor finishes from damage. The layer contracts and expands to deal with structural movements in subfloors due to seasonal changes, preventing damage from occurring to floor coverings.

INSTINCT®

Going Green

We, as Instinct, have a responsibility to the environment. Our aim is to have 100% recycled packaging and continue to work with industry bodies to help customers use their water more efficiently, therefore reducing energy bills and ultimately carbon emissions.

Where required our Instinct products are individually and legally tested to ensure compliance with CE and UKCA Marking. This not only covers material quality but also lifecycle, product impact testing, water integrity and traceability of manufacture.

When it comes to the paper used in the production of this brochure or the wood used in our Wall Panels and Furniture, we have sourced as many products as possible with an FSC® (Forest Stewardship Council®) label or PEFC (Programme for the Endorsement of Forest Certification) accreditation. The FSC® label guarantees that the product originated from managed forests, recycled paper or a combination of both. Products carrying the FSC® label are independently certified to assure that they come from forests that are managed to meet the social, economic and ecological needs of present and future generations.

As a brand, Instinct is committed to protecting the environment and is constantly exploring ways it can improve on this.

Small steps, big change.
